Resource Utilization Dashboard

Monitor hospital resources and optimize operational efficiency across all departments

Resource Metrics

- **Bed Occupancy Rate** – Current bed utilization %
- **Staff Utilization Rate** – Healthcare staff efficiency
- **Equipment Utilization** – Medical equipment usage
- **Equipment Status** – Operational vs. maintenance
- **ICU Utilization** – Intensive care capacity
- **Beds Available vs. Occupied** – Real-time status

📄 Filters: Hospital · Department · Equipment Status ·
Date Range · Drill Through

Conclusion

The **MedTrack Healthcare Dashboard** empowers healthcare administrators to:

- Monitor patient flow and hospital operations in **real-time**
- Optimize hospital resources and **bed management**
- Compare departmental performance and **efficiency**
- Make **data-driven decisions** using interactive Power BI analytics
- Identify trends and improve **patient care quality**

Enabling smarter healthcare management through advanced analytics
