SCREEN NAVIGATION FLOW

ANNOTATIONS

- 1 Top navbar persists across all 4 screens for consistent navigation.
- 2 Global filters are shared across all dashboards — changing one propagates everywhere.
- 3 Bi-directional arrows (⇄) indicate two-way navigation between adjacent screens.
- 4 Screen IDs (01–04) map directly to Tableau worksheet tabs.
- 5 Export action available from every screen via the top-right action bar.
- 6 Filter bar uses Tableau parameter controls + quick filters.
- 7 All screens maintain identical header/footer layout for blueprint consistency.

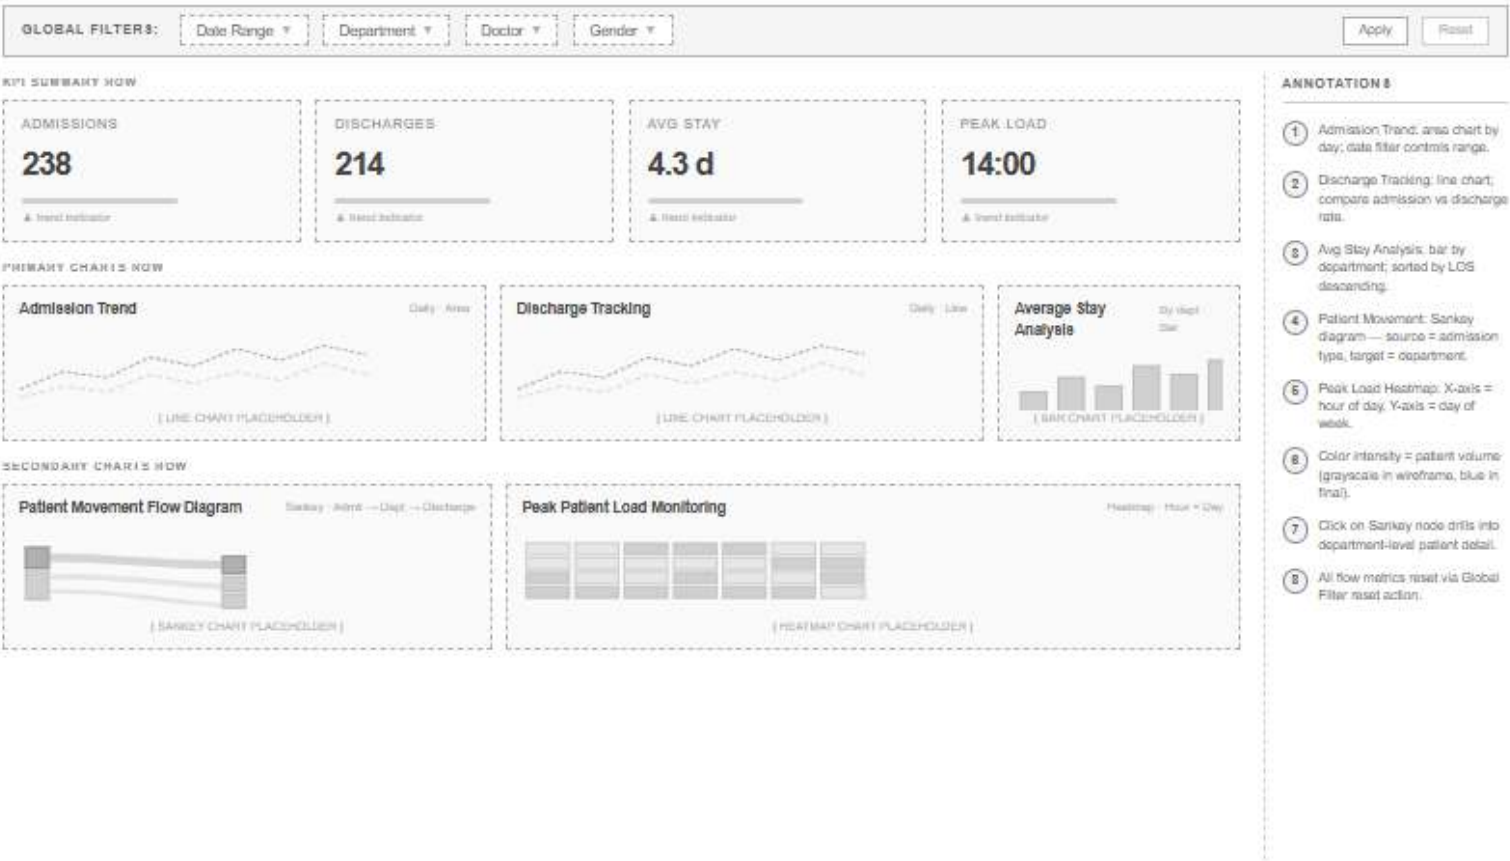

Screen 01 - Hospital Overview | Tableau Workbook: medtrack_jmdtqpa.tableau All charts are placeholders -- final implementation in Tableau

Screen 02 – Patient Flow
