2. Which admission type contributes the most admissions?

ADMISSION TYPE DISTRIBUTION
(Donut Chart)

7. How are admissions changing every month?

MONTHLY ADMISSIONS TREND
(Line Chart)

8. How is the occupancy rate changing every month?

MONTHLY OCCUPANCY TREND
(Line Chart)

5. Is the readmission rate increasing or decreasing over time?

READMISSION TREND
(Line Chart)

6. Which hospitals have the highest readmission percentage?

READMISSION BY HOSPITAL
(Horizontal Bar Chart)

PATIENT FLOW DASHBOARD

Track and analyze patient movement and flow across the hospital

Next Dashboard
DEPARTMENT ANALYTICS

5. What is the average length of stay across the hospital?

AVERAGE LENGTH OF STAY

(KPI Card)

1 Which months experience the highest and lowest patient admissions?

LINE CHART

2 How have patient discharges changed over time?

AREA CHART

3 Which departments transfer the most patients?

HORIZONTAL BAR CHART

4 What are the most common patient movement paths between departments?

MATRIX / TABLE

6 How has the average length of stay changed over time?

LINE CHART

7 During which months does the hospital experience the highest patient load?
